Deadline to apply is August, 24th

Systems Change Module

Join this essential strategy course to **craft your own powerful systems change strategy** based on proven frameworks for scaling impact.

WHAT IS THE COURSE OFFER?

The Systems Change course consists of 8 modules to craft your own systems change strategy. Each module contains videos explaining the main frameworks and how to apply them to the exercises of the workbook which together produce a complete strategy. After each module, we then meet in our course calls to discuss your exercise results, insights, and questions together with other change leaders from around the world.

WHAT WILL YOU LEARN?

Join this course to develop a targeted system change strategy you can implement to scale your impact on the system – without necessarily having to grow your organization. Learn how to apply relevant frameworks to analyse your system with your teams and stakeholders in order to identify a range of actionable interventions to influence your system.
