APPLY NOW!

Deadline to apply is January 12th, 2022

We are launching the second edition of the co-learning module: **Multi-Stakeholder Collaboration**

Join us to meet social entrepreneurs and change leaders who are either **driving a multi-stakeholder collaborative initiative for systems change** or are planning to do so.

WHAT IS THE MODULE OFFER?

We will explore the key elements of successful collaborations by following the journey of a real-life case study and by diving deep into the key lessons, enabling conditions, patterns, and frameworks that supported their success. We then reflect on how the learnings inform our awareness, intention, and choices as leaders – and where we feel confident or not in working this way.

WHAT WILL YOU LEARN?

You will strengthen your strategy and leadership skills for facilitating multi-stakeholder collaboration for systems change. You will learn about concrete tools and frameworks on the “how-tos” of collaboration and the best practices that support effective collaborations for systems change. You discuss your insights and challenges and apply to concrete cases together with leading social entrepreneurs and other change leaders from around the world.
