Igniting Collective Impact: Changemakers Dialogue!

Join us to establish connections with those individuals who are dedicating their time and efforts **to create change and spreading their vision of a new education.**

WHAT IS THE MODULE OFFER?

We have envisioned interactive three different sessions to unlock the changemaker potential:

- **Learning** – Held by fellows, change leaders from changemaking schools, young changemakers who will share technical tools and experiences with the community.
- **Connecting** – During which you will work in smaller groups of changemakers from all over Europe on the issues addressed during the first phase of learning.
- **Collective Sharing and call to action** – A collective moment of knowledge sharing and community building.

WHAT WILL YOU LEARN?

At Changemakers Dialogue!, you will be able to listen to the exciting stories of Ashoka Fellows, Young Changemakers and School leaders and teachers of the network of the Changemaker Schools all over Europe, discuss directly with them about their models and innovations and how to potentially translate them into local contexts. You will also walk away with motivation and feeling part of a community of changemakers to make your journey towards systemic change unlonely.
