Our impact model is built on 5 PILLARS

I. CO-LEARNING
Co-create co-learning spaces
We create co-learning spaces where Ashoka's community comes together to practice and share the most impactful and effective tools and ideas that support change leaders in their efforts to shift systems.

II. ECOSYSTEM
Advance the ecosystem
We work with key players across sectors to create an enabling environment for social entrepreneurship as a force for systems change. Together we create spaces to exchange knowledge, learn together, and collaborate on solutions that advance the field of social entrepreneurship.

III. COLLECTIVE IMPACT
Ignite collective impact
We mobilize and connect Ashoka's community to co-create initiatives that address the world's most pressing challenges. We design meaningful engagement journeys for the community to align, connect, learn, and co-create solutions.

IV. CROSS-CUTTING: IMPACT, COMMUNITY, DIVERSITY, COMMS
We build organizational and knowledge infrastructure to mobilize and engage effectively our community for SE, system change and EACH.

V. MANAGEMENT: TEAM, INTEGRATION, FINANCE, PARTNERSHIPS
We build a strong, integrated and resourceful team with the capacity to ensure the success of this movement.

Working with my teams to think through the clarity of our purpose and strategies - especially identifying our allies!

*Government Alliances*

I have already included some of the Wellbeing Lab issues in the workshops and consultations that I am now running for the leaders of rural associations. I am also preparing for a series wellbeing workshops for people working in the field of social assistance.

*Wellbeing*

I paired this training with a U-Transform System Change training, and I am using both tools to then working on each plot, starting with one of them (approaches to Teacher Education Schools) and moving to the others

*Systems Change*

I have started working with the team to refine the financial model, translating the growth plan into financial projections for costs and funding.

*Social Finance*

We are planning the replication in the first country!

*Replication & Transfer*

We will be adopting the Financial Model template provided within one or two months.

*Social Finance*

I am using it in my work to influence government policy for my system area, the course created a greater focus for me, and highlighted ways I hadn’t thought of.

| Social entrepreneurship is largely limited to the notion of “social business” across Europe. Important new and evolving skills and approaches that would unleash the system-changing potential of social entrepreneurship are not yet accessible to stakeholders in a structured manner. There is no space where stakeholders come together to capture, exchange and develop those skills. They include developing systemic impact strategies, scaling and replicating social innovation across borders, leading collective impact initiatives, social finance for systems change and wellbeing. | Creating the space to capture, exchange and develop the skills, methods and mindsets to support system-changing social entrepreneurs in Europe through the implementation of co-learning modules, with a focus on:  
• Systems Change  
• Replication & Transfer  
• Social Finance  
• New Leadership  
• Wellbeing | Social entrepreneurs and changemakers with:  
• strengthened identity as a leading social entrepreneur and changemakers in their respective field and institutional setting  
• deeper awareness and understanding of their potential system change and contribution to collective impact  
• accelerated know-how, resources, networks and impact  
• Strengthened leadership and wellbeing | A learning ecosystem in Europe that creates the space to capture, exchange and develop the skills, methods and mindsets supporting system changers in Europe. |

Ecosystem Pillar - Initiatives

New ideas and initiatives emerged from these encounters and collaborations;

- **Catalyst 2030** - co-created & co-hosted its working group on funding system change, co-initiated the Investors in Change Academy for Funding System Change, and enabled several national initiatives to fund systems change (e.g., France, Switzerland and Italy).

- **Respond-Rebuild-Reinvent Project** - in cooperation with the OECD and 16 other partners, focused on how city administrations in nine cities support and collaborate with social enterprises and how they can replicate and adopt social innovations despite COVID.

- **European Commission** - partnered with to conduct a study to develop policy recommendations for the promotion of cross-border activities for social economy organizations.

- “**New Allies: How governments can unlock the potential of social entrepreneurs for the common good**” - Co-created & co-hosted a range of international round tables to boost the issue in Europe and beyond.

- **The Elders Council** – a group which we helped to co-initiate – grew to be a global initiative engaging over 200 social innovators on co-learning, peer-to-peer support, and the positioning the issue of transition globally. The Elder’s Council has since been set up as an independent organization.
Ecosystem Pillar - Summary of Outcomes

- 26 roundtables/multi-stakeholder webinars/working groups implemented

- 2000 stakeholders participated

- 3 knowledge products created, one new release:
  - **New Allies**: How Governments can unlock the potential of social entrepreneurs for the common good?
  - **Supporting System Changers**: The role of system thinking, changemaking leadership, and wellbeing
  - **Promoting Cross-Border Activities**: for Social Economy, including Social Enterprises; Status: On-going

- Engaged with +200 social innovators on co-learning, peer-to-peer support, and the positioning the issue of transition globally. The Elder’s Council has since been set up as an independent organization.

- At least 6 prototype initiatives co-developed

Collective Impact Pillar – Priority areas

We co-created and engaged in three collective impact initiatives:

- **Changemakers United** for a Post COVID-19 Society
- **Biodiversity** (Bioregional Weaving Labs Initiative)
  In collaboration with Climate & Planet Next Now team
- **Health**
  In collaboration with the global Making More Health Initiative
Changemakers United is a collective effort to support social innovators at the forefront of the COVID-19 crisis. After its launch in April 2020, the initiative quickly expanded beyond Europe to Africa, Latin America, and South Asia, reaching more than 10,000 participants through online events and engaging 67 mentors and 231 pro-bono experts to support the work of Ashoka Fellows. A total of 105 social entrepreneurs from 34 countries were supported, reaching around 450 million people directly and indirectly with their solutions.
Collective Impact Pillar – **Priority: Biodiversity**

The Bioregional Weaving Labs Collective – a collaborative initiative of 20 systems-changing organizations (16 Ashoka Fellows). Its mission is to accelerate and scale systemic, community-based solutions to conserve and restore biodiversity. The goal is to transform one million hectares of land and sea in Europe into healthy ecosystems, green economies, and thriving communities by establishing at least ten Bioregional Labs before 2025. **8 online workshops** and one in-person retreat were implemented to co-create the initiative and a 5-year plan was subsequently publicly launched.
Collective Impact Pillar - **Priority: Health**

**Making More Health Initiative** – We started to explore the development of a collective impact initiative on health in partnership with the in Europe, Latin America, and Africa. **7 Fellows** from Europe working in the health sector started to co-create together to address health barriers in Europe. We implemented **6 facilitated online workshops** in 2021 to analyse the health system, create shared intentions and goals, and co-create specific actions and solutions. **5 social entrepreneurs** developed a collective advocacy strategy to influence policymakers in Europe to implement policies that equip patients and communities to be active agents in their healthcare journeys.
Democracy - beginning phase - We also began to develop a collective impact initiative on democracy. Based on the findings of Ashoka’s flagship report *Doing Democracy: How Social Entrepreneurs bridge divides, fight apathy and strengthen civic liberties*, we interviewed and engaged 16 Ashoka Fellows in Europe to develop a collaborative initiative focused on empowering community citizenship.

In this reporting period, we have also developed and co-created new partnerships and collective impact initiatives on issues such as gender and migration. More to come soon!

Cross-Cutting - Diversity, Equity & Inclusion

Ashoka Europe Fellowship Program puts diversity, equity and inclusion efforts at the core of its work, as a necessity of fulfilling its vision - a future where everyone is a changemaker.

Goal: Making Fellowship more inclusive & equitable for diverse community of Fellows

Creation of the 1st European Fellowship DEI Strategic Plan

Creation of the 1st DEI knowledge product – The DEI Guidebook for Facilitators
Cross-Cutting: Communications

Reaching and mobilizing our community is a craft to be mastered:

Through newsletters, blog posts, social media and knowledge products, we shared learnings and insights with Ashoka’s core community of +60,000 social entrepreneurs and changemakers globally.

- **2,400** Newsletter recipients (social entrepreneurs & business leaders)
- **41–50%** Newsletter opening rate
- **3,100** Monthly unique webpage visitors
- **40%** Website engagement rate
- **67,200** Changemakers reached via comms campaigns

The Europe Fellowship extended Team of Teams (FY21)

The Fellowship Europe Core Team collaborates, co-creates and co-leads with a range of colleagues from other teams:

Ashoka Fellows are co-leaders and co-creators across all pillars and initiatives. We engage external allies in the development and implementation of a range of initiatives, such as FASE (on social finance) and CoCreative (on new leadership).
The Europe Fellowship extended team of Europe Fellowship Reps (FY21)

Our core constituency is the Fellowship Reps in the country offices across Europe.

Integration of local and European Fellowship is a core priority. Lotte Wendt is currently leading this effort (in transition). An integration plan is co-created and put in action.
Conclusions and Key Learnings
Conclusions – Reach

The Fellowship Europe Program:

- Supported 535 social entrepreneurs and changemakers through co-learning modules,

- Engaged approx. 2,000 social entrepreneurs, changemakers and allies in building and advancing a European ecosystem of support,

- Shared learnings and insights through newsletters, blog posts and knowledge products through its network of 21 country offices with Ashoka’s core community of over 3,000 social entrepreneurs and changemakers in Europe,

- Reached 67,200 changemakers through, newsletter, website & social media

- Responsiveness and willingness to participate and join the program is high and we exceeded planned participation in numbers.
The Fellowship Europe Program:

- Has built a program based on the needs of its community members through a participatory process in program development (+100 organizations involved),
- Received a very positive overall assessment by participants: 94\% would recommend the program,
- Reached a diverse audience that is well balanced regarding their affiliation with Ashoka,
- Achieved to codify and share insights through articles and knowledge products,
- Inspired participation of social entrepreneurs and changemakers globally and from other continents
The Fellowship Europe Program:

- Acts as a catalyst for the European integration of many country offices not only from Europe,
- Involves Ashoka teams, country offices and Fellows annually in program development and remains agile to respond to ad-hoc community needs,
- Enabled to build new European program infrastructure on community management and communications,
- Standardizes internal learnings into accessible and replicable learning and engagement journeys’ for Ashoka Fellows and partners,
- Is staffed and led by Ashoka staff based and integrated across country offices in Europe,
- Supports Fellowship integration across continents and globally through inspiring international participation, knowledge sharing and co-creation.
Thank you!
