

Ashoka Europe Fellowship Program

The **co-learning** and **practicing** community of Ashoka's leading changemakers.

The Ashoka Europe Fellowship Program creates spaces for Ashoka's core community to learn, experience, and practice changemaking. We bring Ashoka's community together around critical challenges and co-develop initiatives together for greater impact. We all work together to build a society where every citizen can contribute, participate, and actively engage in social change for the good of all.

We have two key pillars:

1- CREATE CO-LEARNING EXPERIENCES

We design and deliver co-learning experiences for our community to see and embody changemaking as an approach to transformative social change.

2- PRACTICE COLLABORATIVE CHANGEMAKING

We foster spaces for collaboration & practice to bring our community together around critical issues, challenges, SDG to co-develop initiatives for greater impact.

Who is our community? Ashoka Fellows & their leadership teams, Ashoka Support Network (ASN) members, partners of Ashoka, Ashoka Young Changemakers, Ashoka Staff, Change Leaders, Next Generation leaders, Jujitsu Partners, and the key players in the media, business, and academia ecosystems in Europe and around the world.

Why should you join us? We all work together to build a society where everyone can contribute, participate, and actively engage in social change for the good of all. Join us to advance your changemaking perspective and to create greater impact.
